### **INSTALLATION OF LNL CROSSBARS**

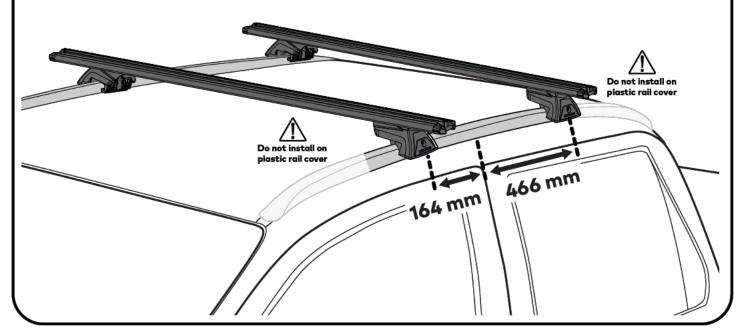

**BAR LOCATION** 

IMPORTANT: Before beginning Bar installation, identify where along the rail the front and rear Bars should be fitted. **Bar Legs should only be placed on aluminum** rail. **Do not place Bar Legs on plastic rail covers.** 

Position front Legs onto the vehicle rail so that they are centred 164 mm forward from rear of front door.

Position rear Legs onto the vehicle rail so that they are centred 466 mm behind the rear of front door.

#### **BAR PLACEMENT**

Carefully place Bar assembly onto vehicle. **Take care not to damage vehicle.** Slide Legs along Bar until foot clamp sits snug against vehicle rail. Secure the Claw assembly to the vehicle rail using a 5 mm Allen Key or Torque

Secure the Claw assembly to the vehicle rail using a 5 mm Allen Key or Torque Wrench.

Torque to 4 Nm. Due to the geometry of the flush rail, a small gap may appear between clamp and rail. This is acceptable and has been tested.

Use a Tape Measure to ensure even Bar overhang on each side, re-adjust if required.

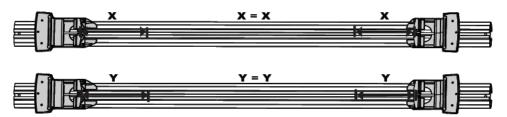

#### **CHECK BAR SLOT MEASUREMENTS**

Using a Tape Measure, record Leg to underside slot distance of each Bar in the table (right). Ensure measurement is taken from the centre of the Legs as shown. The ends of each bar should be the same measurement respectively, if not, repeat Step 4.

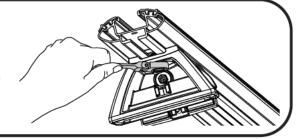

BAR SLOT MEASUREMENTS							
Front Bar (X)	Rear Bar (Y)						
mm x2	mm x2						

#### **SECURE LEGS TO BARS**

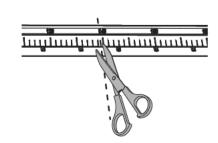

Given that the pivot assembly allows for degrees of freedom, check all plates are evenly arranged and bars are in the desired position/angle before tightening M8 Hex Bolt to 7 Nm.

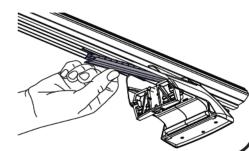

#### **BAR SLOT COVERS**

Cut Bar Slot Covers as per measurements recorded in the table on Step 5 and push into underside channel of front and rear Bar ends as shown.

**NOTE** - Bar Slot Covers to be inserted with flat side visible.

### 8

#### BAR SLOT COVERS (OUTSIDE LEG)

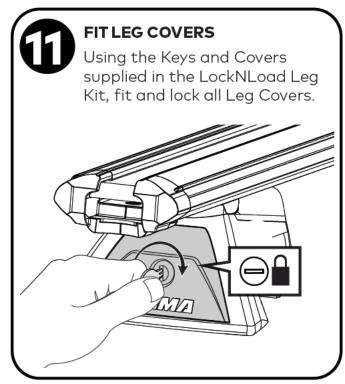

Measure the Bar channel outside of the Legs and subtract 20 mm from this measurement.

Using the remaining pieces of Slot Cover from Step 7, cut to this length and insert into the underside channel of each Bar end as shown.
